Index to the

Aeronautical Engineering Review, Volume 10

January—December, 1951

	Month	Page
Adhesives, sealers, and coatings, aircraft	*Aug.*	10
Aerodynamics—		
Aerodynamic Aspects of the Third International Aeronautical Conference, A. H. Flax	*Dec.*	35
Aerodynamic Forces Associated with Inlets of Turbojet Installations, De Marquis D. Wyatt	*Oct.*	20
Some Observations on Aeronautical Research in England with Particular Reference to Stability and Control, William F. Milliken, Jr	*Dec.*	45
Aeroelasticity—		
Investigation of Flight-Flutter Testing Techniques, Martin D. Schwartz and Donald L. Wrisley	*Aug.*	24
AG-14 pusher, power-plant installation of the	*Feb.*	31
Air traffic control	*May*	18
Air Transport—		
Future Air Transport Possibilities, Grover Loening	*Aug.*	17
Review of Papers on Air Transport, R. W. Rummel	*Dec.*	40
Some Special Aspects of Air Transport Safety, C. M. Christenson	*July*	23
All-weather flying	*May*	44
American Helicopter Society—		
Activities and Events	*Feb.*	10
1951 A.H.S. Forum	*July*	7
July Dinner Meeting of Mid-Eastern Region	*Oct.*	38
News	*Aug.* 46, *Sept.*	6
Western Regional Dinner Meeting	*June*	44
ANDERSON, BEN, AND MARVIN GREENWOOD. Power-Plant Installation of the AG-14 Pusher	*Feb.*	31
Antenna problems, air-borne	*May*	32
Automatic Control—		
Analysis of Systems for Automatic Control of Aircraft, James B. Rea	*Nov.*	39
Autopilot Flight Tests on the Constellation, R. L. Thoren and W. L. Howland	*Nov.*	31
Control-Surface Position Feedback in Flight-Control Systems, Leonard Becker	*Sept.*	17
A Design Method for Automatic Longitudinal Control Systems, Frederick Stevens and K. Martin Stevenson	*Jan.*	18
A Tested Solution of the Problem of Helicopter Stability and Automatic Control, Donald N. Meyers, Edward G. Vanderlip, and P. Halpert	*July*	27
AUYER, E. L., AND R. T. HOLLAND. Practical Aspects of Turbojets in Transport Aircraft	*Mar.*	32
BANKS, CHARLES R. Problems of Standardizing Electronic Equipment for Aircraft	*May*	24
Beam-columns, continuous, interaction curves for the critical loads on	*Mar.*	40
BECKER, LEONARD. Control-Surface Position Feedback in Flight-Control Systems	*Sept.*	17
BERTRANDIAS, MAJOR GEN V. E. Flight Safety Research	*Apr.*	31
BURGESS, N., AND E. S. THOMPSON. Comparisons of British and American Gas-Turbine Practice	*Dec.*	47
Ceramics and special alloys—a metallurgical investigation at elevated temperatures	*Nov.*	24
CHRISTENSEN, I. G. Aircraft Adhesives, Sealers, and Coatings	*Aug.*	10
CHRISTENSON, C. M. Some Special Aspects of Air Transport Safety	*July*	23
Cockpit check lists, placards, and manuals, considerations in the design and installation of	*Sept.*	10
Colorado University's steam-jet-powered supersonic wind tunnel	*Mar.*	38
Constellation, autopilot flight tests on the	*Nov.*	31
Control-surface position feedback in flight-control systems	*Sept.*	17
Cooling a turbojet installation, ejectors for	*Sept.*	20
Design—		
Application of Rocket Power to Aircraft, Howard R. Moles	*Apr.*	24
Considerations in the Design and Installation of Cockpit Check Lists, Placards, and Manuals, David H. Kaplan	*Sept.*	10
The Engineering Approach—1903–1973, Grover Loening	*Mar.*	36
General Aspects of Cabin Pressurization, R. W. Rummel	*July*	14
Review of Papers on Air Transport, R. W. Rummel	*Dec.*	40
Distance-measuring equipment for the terminal area	*May*	48
Documentation—		
Service for Contractors, Maurice H. Smith	*Apr.*	12
DUNNING, ORVILLE M. Packaging of Air-Borne Electronic Equipment	*May*	29
Editorials—		
AMC—The Biggest Business in the World, Lt. Gen. B. W. Chidlaw	*Oct.*	10
Electronics in Aviation, Captain S. B. Spangler, U.S.N.	*May*	8
Fait Accompli	*Nov.*	22

	Month	Page
First Things First	*Apr.*	22
Life Begins at Sixty-Five—, Dr. Nathan A. Bowers	*June*	8
A Message from Britain, Lord Brabazon of Tara	*Dec.*	22
Presidential Shift	*Feb.*	19
The Question of Security	*Sept.*	8
Technical Progress and Air Power in the World Crisis, Rear Adm. L. B. Richardson	*July*	10
Third International	*Aug.*	8
Youth Must Be Served, Rear Adm. A. M. Pride	*Jan.*	16
Visitor of the Week	*Mar.*	29
Ejectors for cooling a turbojet installation	*Sept.*	20
Electronics—		
Air-Borne Antenna Problems, Dr. Harald Schutz	*May*	32
Air Traffic Control, The Hon. Delos W. Rentzel	*May*	18
All-Weather Flying, Captain R. C. Robson	*May*	44
Distance-Measuring Equipment for the Terminal Areas, Joseph Lyman and George B. Litchford	*May*	48
Electronics for Aircraft Illustrated, Welman A. Shrader	*May*	12
Electronics in Aviation, Harold A. Kressly and John S. Erickson	*May*	14
Frequency Allocation for Aviation Electronics, Edwin Lee White	*May*	38
Packaging of Air-Borne Electronic Equipment, Orville M. Dunning	*May*	29
Problems of Standardizing Electronic Equipment for Aircraft, Charles R. Banks	*May*	24
Engineering approach—1903–1973	*Mar.*	36
ERICKSON, JOHN S., AND HAROLD A. KRESSLY. Electronics in Aviation	*May*	14
Fatigue problems in transport aircraft	*June*	20
FAUGHT, H. F., AND C. A. MEYER. A Method of Presenting the Performance of Turbojet Engines	*Jan.*	33
FLAX, A. H. Aerodynamic Aspects of the Third International Aeronautical Conference	*Dec.*	35
Flight-flutter testing techniques, investigation of	*Aug.*	24
Flight Propulsion—		
Aerodynamic Forces Associated with Inlets of Turbojet Installations, De Marquis D. Wyatt	*Oct.*	20
Application of Rocket Power to Aircraft, Howard R. Moles	*Apr.*	24
Ceramics and Special Alloys—A Metallurgical Investigation at Elevated Temperatures, Wilson G. Hubbell	*Nov.*	24
Closed-Circuit Oil System for Turbojet and Turboprop Aircraft Engines, P. H. Schweitzer	*June*	16
Comparisons of British and American Gas-Turbine Practice, E. S. Thompson and N. Burgess	*Dec.*	47
Ejectors for Cooling a Turbojet Installation, H. C. Towle and F. V. H. Judd	*Sept.*	20
An Experimental Investigation of Supersonic Lattice Flow, James E. O'Neill	*Jan.*	28
A Method of Presenting the Performance of Turbojet Engines, C. A. Meyer and H. F. Faught	*Jan.*	33
Operational Aspects of Turbo-Jet Transports, R. Dixon Speas	*Nov.*	48
Power-Plant Installation of the AG-14 Pusher, Ben Anderson and Marvin Greenwood	*Feb.*	31
Practical Aspects of Turbojets in Transport Aircraft, R. T. Holland and E. L. Auyer	*Mar.*	32
Flight Safety—		
Considerations in the Design and Installation of Cockpit Check Lists, Placards, and Manuals, David H. Kaplan	*Sept.*	10
Flight Safety Research, Major Gen. V. E. Bertrandias	*Apr.*	31
Some Special Aspects of Air Transport Safety, C. M. Christenson	*July*	23
FUSFELD, ROBERT D. A Method of Calculating the Landing Flare Path of an Airplane	*Feb.*	25
GREENWOOD, MARVIN, AND BEN ANDERSON. Power-Plant Installation of the AG-14 Pusher	*Feb.*	31
Guided Missiles—		
Pilotless Aircraft Research at N.A.C.A.'s Pilotless Aircraft Research Station, Wallops Island, Va., Welman A. Shrader	*Oct.*	24
The Upper Atmosphere—Its Exploration and Exploitation, Willy Ley	*Feb.*	20
GUSTAFSON, F. B. Desirable Longitudinal Flying Qualities for Helicopters and Means To Achieve Them	*June*	27
HAGE, ROBERT E. Variation in Airplane Range with Wind Velocity	*July*	18
HALPERT, P., DONALD N. MEYERS, AND EDWARD G. VANDERLIP. A Tested Solution of the Problem of Helicopter Stability and Automatic Control	*July*	27
HARRISON, HENRY T. Some Meteorological Problems Indicated for Jet Transport Operation at 40,000 Ft	*Apr.*	52
Helicopters—		
Desirable Longitudinal Flying Qualities for Helicopters and Means To Achieve Them, F. B. Gustafson	*June*	27
Helicopters—Present and Future, Igor I. Sikorsky	*Feb.*	37
An Investigation of a Rotor Blade Thermal Ice-Prevention System for the H-5 Helicopter, E. F. Katzenberger	*Sept.*	25
A Tested Solution of the Problem of Helicopter Stability and Automatic Control, Donald N. Meyers, Edward G. Vanderlip, and P. Halpert	*July*	27
HOFF, NICHOLAS J. A Report on the First U.S. National Congress of Applied Mechanics	*Oct.*	30
———————. A Review of Papers on Structures and Materials	*Dec.*	42
HOLLAND, R. T., AND E. L. AUYER. Practical Aspects of Turbojets in Transport Aircraft	*Mar.*	32
HOWLAND, W. L., AND R. L. THOREN. Autopilot Flight Tests on the Constellation	*Nov.*	31
HUBBELL, WILSON G. Ceramics and Special Alloys—A Metallurgical Investigation at Elevated Temperatures	*Nov.*	24
Hydrodynamic notes on the Third International Aeronautical Conference	*Dec.*	49
Ice-prevention system, rotor blade thermal, for the H-5 helicopter, an investigation of	*Sept.*	25
Inlets of turbojet installations, aerodynamic forces associated with	*Oct*	20
Institute of the Aeronautical Sciences—		
A.A.A.S. Holds Annual Science Exposition and Conference on Scientific Manpower	*Dec.*	21
Aeronautical Engineering Catalog Available	*June*	6
Aeronautical Fellowships Awarded	*Oct.*	6

	Month	Page
A.I.A.A. Elects I.A.S. Members to Posts	*Feb.*	12
American Helicopter Joins I.A.S.	*June*	6
Annual Business Meeting of the Institute	*Mar.*	13
Annual Summer Meeting Preliminary Announcement	*May*	5
1951 Annual Summer Meeting Report	*Sept.*	5
A.S.M.E. Holds Aeronautical Meeting	*June*	38
A.T.A. Elects Directors; Admiral Land Plans To Resign	*Mar.*	20
Bane and Chanute Awards Presented	*Aug.*	5
A Brief Report on the Fourteenth Wright Brothers Lecture	*Mar.*	19
British Scientist To Present Fifteenth Wright Brothers Lecture	*Oct.*	5
W. A. M. Burden Adds to Library Gift	*Mar.*	21
Cargo Carrier Concern Joins I.A.S.	*July*	8
Case Institute Expands Engineering Program	*July*	9
Commanding General, A.M.C., To Be Principal Speaker at Summer Meeting Dinner	*June*	5
Danger of Skidding Removed from Landings	*May*	7
Daniel Guggenheim Park Sold	*Nov.*	19
R. W. Darrow Selected for Award	*Mar.*	20
Director's Report	*Mar.*	14
Flight Refueling, Inc., Joins I.A.S.	*May*	6
Fluid Mechanics Conference Set	*Oct.*	6
Fourth Symposium on Applied Mathematics	*Sept.*	6
G-E Aircraft Gas Turbine Laboratory Dedicated	*Feb.*	6
Gifts to the Institute Collections	*Apr.*	7
The Robert H. Goddard Memorial Exhibit	*Feb.*	8
Greater New York Safety Convention and Exposition	*Dec.*	21
1951 Guggenheim Jet Propulsion Fellows Named	*Aug.*	6
1950 Guggenheim Medal Presented to Dr. Dryden	*Mar.*	11
1951 Guggenheim Medalist, Igor I. Sikorsky	*Oct.*	6
Guided-Missile Authority Retires	*Jan.*	8
1951 Heat Transfer and Fluid Mechanics Institute	*Sept.*	7
Highlights of the Technical Sessions of the Nineteenth Annual Meeting	*Jan.*	7
Honors Night Dinner Address, James E. Webb	*Mar.*	30
I.A.S. 20th Annual Meeting	*Dec.*	20
I.A.S. Fellows for 1950	*Mar.*	10
I.A.S. Honors and Awards for 1950	*Mar.*	6
I.A.S. Members Named to Chairmenships of N.A.C.A. Technical Committees	*Apr.*	6
I.A.S. Navy Inspection Tour	*Jan.*	6
I.A.S. Officers for 1951	*Mar.*	12
The I.A.S.-Sponsored Applied Mechanics Reviews	*Nov.*	20
I.A.S. Student Branches Hold Second Annual Southeastern Regional Meeting	*July*	8
I.A.S. To Send Ninety Delegates to Third Anglo-American Aeronautical Conference	*July*	5
I.A.T.A. Delegates Guests of Donald W. Douglas	*Jan.*	8
Impressions of the Third Anglo-American Aeronautical Conference, Welman A. Shrader	*Dec.*	24
1951 International Exhibition	*Jan.*	8
M.-W. Kellogg Joins I.A.S.	*Dec.*	21
Lear Wins Collier Trophy	*Feb.*	11
Maddida Displayed During I.A.S. Annual Meeting	*Apr.*	6
March 16 Set As Date for Sixth National Flight Propulsion Meeting	*Feb.*	5
Marquardt Aircraft Company Joins I.A.S.	*Mar.*	20
Medaille de l'Aéronautique Awarded Captain Pritchard	*June*	6
National Conference on Industrial Hydraulics	*Nov.*	20
Newly Elected Members to the Institute Council	*Mar.*	16
Nineteenth Annual Meeting—Impressions and Comments, Dr. Stephen J. Zand	*Apr.*	35
Notes on the Annual Meeting	*Mar.*	5
Office of Air Research Lets Oil-Film Contract	*July*	9
President's Report	*Mar.*	13
Propeller-Blade Extrusion Method Developed	*May*	6
Prototype Aircraft Advisory Committee Established	*Mar.*	20
A Report on the Sixth National Flight Propulsion Meeting	*June*	7
D. C. Sayre To Head Forrestal Research Center	*Apr.*	7
Service for Contractors, Maurice H. Smith	*Apr.*	12
Space Medicine Society Formed	*Aug.*	7
Square D Company's Kollsman Division Sold; Victor E. Carbonara To Be President	*Feb.*	11
Technical Sessions—Annual Summer Meeting, Harold Luskin	*Oct.*	16
Third Joint R.Ae.S.-I.A.S. International Conference Set for September	*Apr.*	5
Three Student Members Win Contest	*Feb.*	14
Treasurer's Report	*Mar.*	14
University of Wichita Honors Memory of Walter H. Beech	*Oct.*	7
von Kármán Wins British Medal	*Feb.*	11
James E. Webb To Be Speaker at Honors Night Dinner	*Jan.*	5
West Coast I.A.S. Student Branches Hold Regional Meeting	*Aug.*	6
Charles E. Wilson To Be Speaker at Honors Night Dinner	*Dec.*	19
Jet transport operation at 40,000 ft., some meteorological problems indicated for	*Apr.*	52
JUDD, F. V. H., AND H. C. TOWLE. Ejectors for Cooling a Turbojet Installation	*Sept.*	20
KAPLAN, DAVID H. Considerations in the Design and Installation of Cockpit Check Lists, Placards and Manuals	*Sept.*	10
KATZENBERGER, E. F. An Investigation of a Rotor Blade Thermal Ice-Prevention System for the H-5 Helicopter	*Sept.*	25
KRESSLY, HAROLD A., AND JOHN S. ERICKSON. Electronics in Aviation	*May*	14
Landing flare path of an airplane, a method of calculating	*Feb.*	25
LEY, WILLY. The Upper Atmosphere—Its exploration and Exploitation	*Feb.*	20
LITCHFORD, GEORGE B., AND JOSEPH LYMAN. Distance-Measuring Equipment for the Terminal Area	*May*	48
LOENING, GROVER. The Engineering Approach—1903–1973	*Mar.*	36
———. Future Air Transport Possibilities	*Aug.*	17
LUSKIN, HAROLD. Technical Sessions—Annual Summer Meeting	*Oct.*	16
LYMAN, JOSEPH, AND GEORGE B. LITCHFORD. Distance-Measuring Equipment for the Terminal Area	*May*	48
Materials—		
Aircraft Adhesives, Sealers, and Coatings, I. G. Christensen	*Aug.*	10

	Month	Page
Ceramics and Special Alloys—A Metallurgical Investigation at Elevated Temperatures, Wilson G. Hubbell	*Nov.*	24
Ocean Test Tube, International Nickel Company's Laboratories, Kure Beach and Wrightsville Beach, N.C., Welman A. Shrader	*Jan.*	24
A Review of Papers on Structures and Materials, Nicholas J. Hoff	*Dec.*	42
McCone, John A. The Air Force Procurement and Expansion Program	*June*	12
Mechanics, Applied, a report on the First U.S. National Congress of	*Oct.*	30
Meteorology—		
Some Meteorological Problems Indicated for Jet Transport Operation at 40,000 Ft., Henry T. Harrison	*Apr.*	52
The Upper Atmosphere—Its Exploration and Exploitation, Willy Ley	*Feb.*	20
Meyer, C. A., and H. F. Faught. A Method of Presenting the Performance of Turbojet Engines.	*Jan.*	33
Meyers, Donald N., Edward G. Vanderlip, and P. Halpert. A Tested Solution of the Problem of Helicopter Stability and Automatic Control	*July*	27
Military Aviation—		
The Air Force Procurement and Expansion Program, John A. McCone	*June*	12
Honors Night Dinner Address, The Hon. James E. Webb	*Mar.*	30
Military Research and Development, Philip B. Taylor	*Apr.*	49
Milliken, William F., Jr. Some Observations on Aeronautical Research in England with Particular Reference to Stability and Control	*Dec.*	45
Moles, Howard R. Application of Rocket Power to Aircraft	*Apr.*	24
Necrology—		
Adams, John S., Jr.	*Jan.*	8
Aument, Carroll M.	*Feb.*	14
Bakhmeteff, Dr. B. A.	*Oct.*	7
Beech, Walter H.	*Feb.*	14
Burgess, Charles P.	*Aug.*	7
Campbell, Horace A.	*July*	38
Christian, Wallace J.	*June*	38
Derwingson, Joseph G.	*Dec.*	60
Dobony, Ensign Charles	*July*	38
Farmer, William G. D.	*Aug.*	42
Friedman, William S.	*Sept.*	7
Graham, William H., Jr.	*May*	7
Gulshen, Ensign Francis J.	*Oct.*	7
Hanley, William V.	*June*	38
Harrigan, William P.	*Feb.*	15
Heimburger, Douglas Corbett	*Nov.*	20
Herman, Fred W.	*June*	38
Holbrook, Charles T.	*Oct.*	7
Huff, Thomas Henri	*Apr.*	7
Kellett, W. Wallace	*Oct.*	36
Lockwood, Preston	*June*	38
Love, Charles C.	*Feb.*	15
McAlpine, Major G.	*Feb.*	15
Meade, Joseph F., Sr.	*Jan.*	8
Ovens, William G.	*June*	40
Pawlowski, F. W.	*June*	40
Pearson, Walter H.	*Aug.*	42
Phillips, James A., Jr.	*Feb.*	15
Powell, Dr. Clarence Henry	*Nov.*	20
Purdon, Lt. Comdr. David	*Mar.*	23
Roy, Capt. Robert R.	*Sept.*	7
Segal, Robert Louis	*Nov.*	21
Sutton, Harry A.	*Sept.*	36
Tuntland, Paul E.	*Apr.*	9
Tuttle, Col. A. D.	*Dec.*	60
Wall, Walter R., Jr.	*Apr.*	9
Wallace, Lee S.	*June*	40
Ware, Raymond	*Nov.*	21
Weems, George T.	*May*	7
Wilson, Major Harold L.	*June*	40
Oil system, closed-circuit, for turbojet and turboprop aircraft engines	*June*	16
O'Neill, James E. An Experimental Investigation of Supersonic Lattice Flow	*Jan.*	28
Packaging of air-borne electronic equipment	*May*	29
Performance—		
A Method of Calculating the Landing Flare Path of an Airplane, Robert D. Fusfeld	*Feb.*	25
Operational Aspects of Turbo-Jet Transports, R. Dixon Speas	*Nov.*	48
Variation in Airplane Range with Wind Velocity, Robert E. Hage	*July*	18
Pilotless aircraft research	*Oct.*	24
Pressurization, cabin, general aspects of	*July*	14
Range, airplane, variation in, with wind velocity	*July*	18
Rea, James B. Analysis of Systems for Automatic Control of Aircraft	*Nov.*	39
Research, aeronautical, in England with particular reference to stability and control, some observations on	*Dec.*	45
Research and development, military	*Apr.*	49
Rentzel, The Hon. Delos W. Air Traffic Control	*May*	18
Robson, Captain R. C. All-Weather Flying	*May*	44
Rottmayer, Earl. Interaction Curves for the Critical Loads on Continuous Beam-Columns	*Mar.*	40
Rummel, R. W. General Aspects of Cabin Pressurization	*July*	14
———. Review of Papers on Air Transport	*Dec.*	40
Safety research, flight	*Apr.*	31
Safety, transport, some special aspects of air	*July*	23
Schutz, Dr. Harald. Air-Borne Antenna Problems	*May*	32
Schwartz, Martin D., and Donald L. Wrisley. Investigation of Flight-Flutter Testing Techniques	*Aug.*	24
Schweitzer, P. H. Closed-Circuit Oil System for Turbojet and Turboprop Aircraft Engines	*June*	16
Seaplanes and Flying Boats—		
Hydrodynamic Notes on the Third International Aeronautical Conference, Ernest G. Stout	*Dec.*	49
Shrader, Welman A. Electronics for Aircraft Illustrated	*May*	12
———. Impressions of the Third Anglo-American Aeronautical Conference	*Dec.*	24

	Month	Page
———. Ocean Test Tube, International Nickel Company's Laboratories, Kure Beach and Wrightsville Beach, N.C.	*Jan.*	24
———. Pilotless Aircraft Research at N.A.C.A.'s Pilotless Aircraft Research Station, Wallops Island, Va.	*Oct.*	24
SHULER, WILLIAM T. Fatigue Problems in Transport Aircraft	*June*	20
SIKORSKY, IGOR I. Helicopters—Present and Future	*Feb.*	37
SMITH, MAURICE H. Service for Contractors	*Apr.*	12
SPEAS, R. DIXON. Operational Aspects of Turbo-Jet Transports	*Nov.*	48
Standardizing electronic equipment for aircraft, problems of	*May*	24
STEVENS, FREDERICK, AND K. MARTIN STEVENSON. A Design Method for Automatic Longitudinal Control Systems	*Jan.*	18
STEVENSON, K. MARTIN, AND FREDERICK STEVENS. A Design Method for Automatic Longitudinal Control Systems	*Jan.*	18
STOUT, ERNEST G. Hydrodynamic Notes on the Third International Aeronautical Conference	*Dec.*	49
Stress Analysis and Structures—		
Fatigue Problems in Transport Aircraft, William T. Shuler	*June*	20
Interaction Curves for the Critical Loads on Continuous Beam-Columns, Earl Rottmayer	*Mar.*	40
A Review of Papers on Structures and Materials, Nicholas J. Hoff	*Dec.*	42
Summaries of Technical Papers—		
I.A.S. Previews... *Jan.*, 43; *Feb.*, 39; *Apr.*, 63; *May*, 57; *June*, 35; *Aug.*, 37; *Sept.*, 35; *Oct.*, 35; *Nov.*, 63;	*Dec.*	53
Supersonic lattice flow, an experimental investigation of	*Jan.*	28
TAYLOR, PHILIP B. Military Research and Development	*Apr.*	49
THOMPSON, E. S., AND N. BURGESS. Comparisons of British and American Gas-Turbine Practice	*Dec.*	47
THOREN, R. L., AND W. L. HOWLAND. Autopilot Flight Tests on the Constellation	*Nov.*	31
TOWLE, H. C., AND F. V. H. JUDD. Ejectors for Cooling a Turbojet Installation	*Sept.*	20
Transport aircraft, fatigue problems in	*June*	20
Transport aircraft, practical aspects of turbojets in.	*Mar.*	32
Transport, jet, operation at 40,000 ft., some meteorological problems indicated for	*Apr.*	52
Transports, turbo-jet operational aspects of	*Nov.*	48
Upper atmosphere—its exploration and exploitation	*Feb.*	20
VANDERLIP, EDWARD G., DONALD N. MEYERS, AND P. HALPERT. A Tested Solution of the Problem of Helicopter Stability and Automatic Control	*July*	27
WEBB, THE HON. JAMES E. Honors Night Dinner Address	*Mar.*	30
WHITE, EDWIN LEE. Frequency Allocation for Aviation Electronics	*May*	38
Wind Tunnels—		
Colorado University's Steam-Jet-Powered Supersonic Wind Tunnel	*Mar.*	38
WRISLEY, DONALD L., AND MARTIN D. SCHWARTZ. Investigation of Flight-Flutter Testing Techniques	*Aug.*	24
WYATT, DE MARQUIS D. Aerodynamic Forces Associated with Inlets of Turbojet Installations.	*Oct.*	20
ZAND, DR. STEPHEN J. Nineteenth Annual Meeting—Impressions and Comments	*Apr.*	35

1951 AERONAUTICAL ENGINEERING CATALOG

The only publication of its kind devoted exclusively to the aircraft industry, this CATALOG serves as a valuable buyers' and reference guide to sources and specifications on aircraft materials, parts, and accessories. It is distributed annually to Chief Engineers, Designers, Production Heads, and Purchasing Departments of all leading Aircraft, Aircraft Engine, Instrument, Accessory, and Aircraft Parts Manufacturers; Air Transport Companies; Army, Navy, and Governmental Agencies; Research Organizations; Engineering Libraries; etc.
